

### PSA Leadership Committee: Chairman Update

PSA Community,

The PSA Leadership Committee is excited to embark on another year-long journey with you. A wonderful and diverse group of proven leaders from across the industry make up the committee. We will eagerly fulfill our duties of sharing knowledge, delivering resources, and establishing industry best practices.

In our monthly meetings, we will communicate lessons learned and in turn deliver great content to the network, ranging from LinkedIn posts, to guest presentations, to reading lists.

In addition to the monthly content we create, we will also lead two sessions at PSA TEC 2019. One of the sessions will be a workshop and will focus on employee performance management. The other TEC session will be on community involvement and leadership and how to establish and achieve your vision.

I encourage you to visit [www.psaeducation.com](http://www.psaeducation.com) and go to the Committee Resources, then Leadership Committee page: [https://www.psaeducation.com/committee\\_landing.php?v=leadership](https://www.psaeducation.com/committee_landing.php?v=leadership) We are continuously adding more content and resources for the PSA network. Also, we hope to see you at our 2 Leadership Committee sessions at TEC.

Lastly, I encourage you to contact the Leadership Committee members with recommendations for content or to assist you with leadership challenges you may have. We are here to serve your needs!

Thank you,

Shaun Castillo

PSA Leadership Committee Chairman

President, Preferred Technologies, LLC
